The **Jurisdiction**[®] self-help course is unlike anything you've ever seen, covering everything you need to know about "**How to Win in Court**", from pleadings to appeals ... *and everything in between!*

Created by a licensed attorney with more than 30 years of experience, this course has been on the web longer than Google, having started back in 1997. Today this is the #1 step-by-step legal self-help course in the world.

You will learn from an expert litigator who makes everything easy-to-learn, and you will learn quickly. The most important case-winning concepts will be yours in the first 24 hours. You will learn how to win!

Includes videos, audio clips you can download and take with you, sample forms, charts, diagrams, and simple tactics you can use to prevent your opponent from taking advantage of you with "lawyer tricks".

You will learn how to act as plaintiff or defendant in any civil suit and how to protect yourself if arrested in any criminal case ... state court or federal. **No lawyer? No problem!**

You'll learn how to draft pleadings, write and file motions, make effective courtroom objections, set hearings, get admissible evidence into the record, cross-examine witnesses, and how to prepare your case for appeal in case you lose in the lower court (*which will not happen if you stick to what the course teaches step-by-step*).

You will learn how to do legal writing, how to read legal documents, how to do legal research, and how to get judges to sit up and pay attention to you!

More than 20 years of work has gone into the creation of this amazing course that has helped thousands to get justice for themselves *without a lawyer!*

If you can't afford a lawyer, the course will show you what to do every step of the way, with examples. If you can afford to hire a lawyer, this course will save you thousands of dollars by showing what your lawyer *should* be doing to win and what *you* can do to reduce his fees and keep him on track instead of bailing out at the last moment or failing to stand up against a biased judge and fight tooth-and-nail for you.

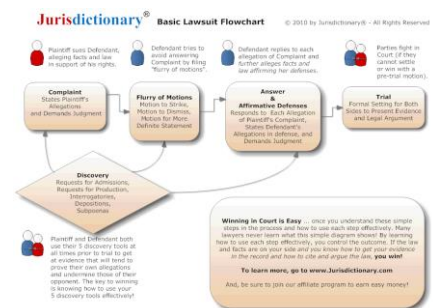

None of your rights is more important than your #1 right, the right you will gain from this course: ***to know how to fight and win in court!***

This is the only course of its kind, public legal education *everyone* can understand and use to get justice!
